**Subject:** RE: monitoring well access

Sarah,  
*I think Brian meant MMW-P-01 instead of MWP-P-01, which is Mundell's well. Should we contact GeNnx for property access?*  
Thanks,

**Subject:** RE: monitoring well access

Erin,

MW-170S, MW-170D and MWP-P-01 are not Mundell monitoring wells. Regarding drum usage: as far as I know we do not have a purge water drum on site. We had them removed after last quarter's sampling event. There will be additional drums onsite after our quarterly sampling event which is scheduled for July 20<sup>th</sup>.

Please call or email with questions.

Sarah

**Subject:** monitoring well access

Hi Sarah and Andy,  
*The EPA representatives would like to get monitoring well access to Genuine Parts and Michigan Plaza wells as soon as possible—would you be able to let me know today if you are able to allow access and send the completed access agreement to us? Also, does either site have drums on-site for purge water storage? If possible, EPA would like to put their purge water into your drums. Please let me know if this is possible.*  
Thanks so much,
